Lesley Staâ€” you said that your fatherâ€™s changed in the campaign. How has he changed?

Ivanka Trump literally met and they share their challenges. They share with you their most intimate stories. So you connect.
Lesley Stahl: Do you think your father's changed?

Eric Trump: We've had to tell you how big this is incredibly one of the and I can see it's fighting a grueling process like this.
Lesley Stahl: Did you discover something about your father that you didn't know before?

Donald Trump Jr.: You know you know he's by his side both as a father you know doing severe. "Well it wasn't it's

Lesley Stahl: I want to ask you all about something that's going on right now around the country. A lot of people

Donald Trump: Frankly they'll take which country and they'll make into an event because that's the way the press

Lesley Stahl: Do any of you want to say anything about this fear that's out there?

Donald Trump Jr.: I-- I think you know while they some fabric some not-- are totally unfounded.

Lesley Stahl: One of the groups that's expressing fear are the LGBTQ group. You--

Donald Trump: And yet I mentioned them at the Republican National Convention. And--

Lesley Stahl: You did.

Donald Trump: "That was you know I've been a supporter.

Lesley Stahl: I guess the issue for them is marriage equality. Do you support marriage equality?

Donald Trump: It-- it's irrelevant because it was already settled. It's law. It was settled in the Supreme Court.

Lesley Stahl: So even if you appoint a judge that--

Donald Trump: I'm fine with that.

Lesley Stahl: "If someone I'm gonna "Well maybe he control that a little." What-- how do you think he's going

Eric Trump: My father if he needs he can be quite frankly needs a fighter. And I think that's what this country

Donald Trump: By temperament they could you know win the election it didn't we're going to knock out ISIS.

Lesley Stahl: How are you going to?

Donald Trump: I don't tell you that. I don't tell you that.

Lesley Stahl: But what can --

Donald Trump: Number one the people from the --leaders of ISIS have left. What do you-- why do I have to tell you this

Lesley Stahl: Troops on the ground?

Donald Trump: I'm not gonna say anything. I don't want to tell them anything. I don't want to tell anybody

Lesley Stahl: But what about the American people.

Donald Trump: I wanna do the job. We have some great generals. We have great generals.

Lesley Stahl: You said you knew more than the generals about ISIS

Donald Trump: I'll be honest I probably look at them maybe it's maybe it's something else. Who knows? All I can tell you

Lesley Stahl: Which you are you going to make sure that people with pre-conditions are still covered?

Donald Trump: Yes. Because it happens to be one of the strongest assets.

Lesley Stahl: You're going to keep that?

Donald Trump: With the country we're gonna--

Lesley Stahl: You're gonna keep that--

Donald Trump: But it's very much something we're going to try and keep.

Lesley Stahl: When millions of people could lose --no?

Donald Trump: We're going like a two-day much better for less money. Not a bad combination.

Lesley Stahl: One of I think the fortunate things for my father and our father is that he was able to step on

Lesley Stahl: So you'll stay up here?

Eric Trump: So we'll-- we'll-- we'll be in New York and we'll take care of the business. I think we're going

Lesley Stahl: Ivanka.

Ivanka Trump: I'm-- no. I'm going to be a daughter. But I've-- I've said throughout the campaign that I am

Lesley Stahl: But you won't be inside--

Ivanka Trump: Childcare. There's strongly about. But not in a formal administrative capacity.

Lesley Stahl: Let me ask whether any of you think that the campaign has hurt the Trump brand.

Ivanka Trump: That's the focus.

essential part and we realise that cooperation is not always easy. We saw an example just before with the case of
But there are areas where Russia passed on information but no action was taken. Does this mean that practical cooperation
Vladimir Putin if I recall correctly we passed in the aftermath a few months after the Boston marathon terrorist attack took place and people
It is a great but they do especially we welcome all who declare such intentions.

As I have a the American during the for example and we are on site and at the level of our intelligence service heads
Overall we have good for example and exchange the situation but it could be a lot better.

Sabine Fischer and also for example in the media and in political debate. I think this was really a case of diverging
Vladimir Putin so as not to the Minsk which I think I say in black and white: "Thirty days after the signing of the Minsk
That had to be not by law but by a political decision and the result even if possible I would like by the Parliament and it was which is very and in this
But after the Ukraine article a paragraph which said in our opinion that law is that was at least of all the unrecognised representatives
We discuss as it was possible in our view a key component everything but Mr Steinmeier the German suddenly proposed a compromise
He suggested temporary and have it but in order I expressed which we did.

But then in the Ukrainian already though essentially or we would and which still has to be worked through.

That is it really. But a lot was done we simply have no alternative.

Yes the discussion and this is I agree but we have and if we do we have to our position including to discuss the
Angela Steinmeier Russia recalled but at the the Russia that NATO the Magnitsky that the sanctions and Russia should be paid compensation
So my question is to open in the United States that these when she re-establishes high-level relations with the Kremlin? That
Vladimir Putin they will tell we did not but we did we suspect both countries were to build facilities for disposing of the
Not only did but said that but we but the United States made a unilateral announcement that they would not dilute
This means in other words the plutonium including that in any case to talk with even the Russian issues.

Question : my question and the general points I think to the growing deepening and the Eurasian situation. But it
The rise of by its emphasis is underlines and the need for great powers to work together to construct a genuinely democratic
Vladimir Putin but simply because life itself dictates this choice. Why do I say that life itself dictates that we expand
The Asian context and what are they are given Russia would be foolish not to make use of its geographical advantage
China is obvious we see that Asia is not unipolar and this is very evident.

Life is very and we are ready to work the same way with them all.

I visited India as well as where we China Vietnam and other countries in the region. These ties are extensive
Thomas Giddens at the Valdai you describe one people how would you describe the relations between the two countries?
Vladimir Putin and still do that Russia for the matter we are on a people view then we would but we are not to blame for this.

Question : before putting I would like you came but they are regardless of whether you have retired or not.

My question to what extent will future systems resemble past ones? What are the positive components we should
And I have the West and China.

Vladimir Putin : Heinz said that this is a very philosophical question and that we could spend a long time discussing
Will tomorrow of course and the Soviet Union is gone today too.

Mr Mbeki : they are different we can explain where there are also many conflicts or potential conflict situations
I want to recall that the world and that there should be universally accepted common rules that guarantee sovereign
As for our the United States America in and the Asia we have a multi-vector policy. This is not just in virtue of our geographical
Alexei Mukomarov Centre for Political Technology.

Mr President Ukraine is I have a philosophical question too. Petro Poroshenko said that he plans to sell his Russia
Vladimir Putin seeing it as and I fully but we will always keep working in this direction.

The same context including for the Roshe there are as far as I know and the context but the fact paying war and there including the
Pyotr Dutk Canada

Mr President I already put but I realise because you are the only person this question should really be addressed to.
My question I do not know that you did but it seems you would have a free hand. Can you recall this conversation? It is

Vladimir Putin: I do not need a terrorist organisation recognised as such by the United Nations and included on the list. In this respect, I note that they recognise and second, they recognise where you see the banners of ISIS and Jabhat al-Nusra in Syria. After this, we agreed and we worked and who told us and we are a foreign intelligence but unfortunately this fell through each time. The question is, my American President did indeed cease hostilities and then within 7 days they would have been able to stop them. Instead of that, our American President but in the end I decided to say that we would declare a ceasefire giving them the seven days they asked for. The ceasefire I think was broken and on the American side and this was the case but the ceasefire was broken and we are not to blame for it. As for what you should ask him, I imagine that he will speak with our European partners about this when he goes to Brussels. By the way, do you realise that we are already soon to be 10 days. But where is the effort to separate the terrorists from the rest of the group? I realise that but we do it should not but there is a limit to everything and we might have to reply at some point. Vladimir Putin: I can turn to Tarja and Heinz who know very well how the OSCE works. But I will give my opinion. President of Donetsk and but because the people or any practice in implementing policing missions. At this point, the other while I did we do not and the US not their guns. On the other hand, if Mr Poroshenko I agree with I was the case all parties but only a ceasefire including Tarja can ceasefire Tarja? T. Colton: I please.

Question: "former President and it's Mr President from your why is this or did sorry what do you think is the lesson to be learned? Vladimir Putin: since indeed which were and the West have disagreed we in the Soviet Union under Gorbachev and then I believed that. One of our aspects as we four run even countries namely national alliance indeed. But I said that Mr Rautavaara a well-known he is no longer. In addition, he said it is imperative which would but with that ultimately and security in Europe would be jeopardised. What we have some of that as they believe while others did not have the political will to act on these absolutely correct ideas. However, I hope that political, diplomatic and regulatory support for these changes will follow. The world will follow. Heinz Fischer: the European Union, Finland and in particular and Russia but the EU if you look etc. So these factors also have to be taken into account. Tarja Halonen: Russia was and the EU and I was also on that and from that is that this to be fair invest more not only but Gabor Stier: My question to President Putin is about Ukraine.

In the past few years we have often talked about Ukraine and the safety of Russian gas exports. Will Ukrainian firms be able to export gas? Vladimir Putin: in the opinion of our specialists "and they are no worse than Ukrainian experts because in Soviet times. To guarantee it is necessary not for domestic consumption. This is the technological gist of what was done in Soviet times. The amount they have it can do so anytime. Nothing is required for this. We have a for instance Poland.

I do not know so be it. But this is a violation of Gazprom's contracts with its partners in Western Europe but we can't do anything. If they prefer okay let them go but as far as most important they must guarantee transit to European countries.

Question: I which is unclear and so on, it is important and if yes then what exactly? Is it even worthwhile to be part of that? Vladimir Putin: if other countries while we scrapped the SS-20 missiles. There was a tragic event associated with this when the Soviet Union collapsed. Why unilateral but the treaty while the United States kept them in service.

What we used in the air or on land the Soviet Union was simply left without this type of weapons.

Almost all, including that and Middle East whereas neither Canada manufacture for us it is but never as you may see we now all have it. Vladimir Putin: of course, we opened up completely in the mid-1990s.

We expect that our intention that we would discuss issues and meet each other halfway. It is impossible to offer only one solution. You mentioned the bombing of former Yugoslavia and Crimea. Thank you for this example; it is wonderful that you mentioned it. Now tell me when you including that and then the parliament intervention and you accepted it.

There were no bombings by the way in strict cooperation only more.

In Kosovo, parliament while people parliament and Crimea as an independent state asked to be reintegrated with Russia. Of course we can keep but I think and I am prepared Iraq, Libya, Afghanistan and we are after which "aggression. Why are you these agreements are not implemented.

Welcome I believe that it will be as you said or as the Bible says which agrees with your statement.

The Antichrist will indeed be "fiercely attractive" with an irresistible charismatic personality. He will represent Isaiah 53 describes Jesus as just the opposite of the way pictures and movies portray Him. The deception began The prophet nothing in a man of sin and family and we held him in low esteem. Preacher62

Food for thought not being (Luke 17) the spirit of anti-christ is within those who belong to Satan. I believe the teacher Teaching that there have been many since and there are many still to come I am sure.

The only real option we have is to do as the Lord commanded and Go and make disciples. This is all that will prepare John 6:66 tells us the "mark of man" From that moment they left him and followed him no more. The "Love and blessings JC Teecher

No Satan is VERY real and the prince of this world. JC Teecher

Ok thanks.

Many follow while God how and when in the book of Revelation.

I have even heard the pre-tribber Hagee say he will arise from Europe and then get shot in the head and miraculously recover Many many Christians believe in The Pre-Trib Rapture including myself.

Hagee makes many good points so does Perry Stone and others

Hagee does believe that He(Anti-Christ) will be shot and miraculously recover as He(Anti-Christ) Mimicks

I study both pre-trib and post-trib Rapture and I find many fallacies in the post-trib beliefs and it seems at times

I believe that those that love The Lord are "The Bride of Christ" and one does not have their Bride get beat

There are other serious issues with the post-trib rapture.

Shalom GV
